## Getting to know South Africa

---

- ① Before you start planning your travel route, you have to get to know your road trip country better. It's your job to create a mindmap about South Africa together with your mate and the other competitors.

### Tipp

Hier könnte der QR-Code für eine kollaborative Mindmap, wie z.B. auf flinga.fi stehen.

- ② Spin the decision wheel to find out your two subtopics for your research.
- ③ Use the qr-code to open the collaborative mindmap on flinga.fi.
- ④ Use the given qr-codes to start your Internet research. Find at least five key pieces of information about your subtopic.
- ⑤ If you find other useful Internet sources besides those on the qr-codes, post them also on the flinga bord.
