

After reading the book

- ① A lot of people talk about books on „Bookstagram“ (Instagram profiles who only post about books). Create a post about *Dear Martin* and write a review in your caption. You can create the post and then take a screenshot before the last step if you don't want to post it in your feed.

Writing a good review

A good review should include the following:

- a short summary
- main topics
- your opinion: did you like or dislike the book and why
- no major spoilers
- optional: How would you rate the book? (e.g.: 4/5 or 7/10)

- ② Before reading, we talked about why Nic Stone decided to write the book. Sometimes, books also have an impact on society. What effect can *Dear Martin* have in your opinion?
