

Pets

We all love them and we have them. Some of us have only one, some have more. It all depends on the size of our flats and houses, on the time we have. Pets need a lot of time, we must take care of them and spend time with them. Not all pets are the same. Pets you keep in a terrarium, aquarium, or aviary don't need so much of our time. If they have enough space and food then they are fine also for longer periods of time. If you have a dog, a cat, a rabbit or any other furry animal you must have time to entertain these pets.

| | True | False |
|------------------------------------------------------------------------------|------|-------|
| Everybody has more than one pet. | | |
| If you have a big house you can have more and bigger pets. | | |
| Some pets need more time than others. | | |
| People keep reptiles in a tank and they need so much time to entertain them. | | |
| Furry animals love if you play with them and if you entertain them. | | |
