who, which or that

Why who?

We use who, if we talk about Person!

Exsample:
He cleaned his bike yesterday.
Who cleaned his bike yesterday? He!

Don't use who for things or anything like that. Who is everytime only for Persons/ Charakters

Why which?

We use wich, if we talk about things!

Exsample:
That is the phone which is broken.

Why that?

We use that for things and Persons!

Don't forget!

who, which or that are relativ clauses. They are to deskripe things or People in detail.

Exsample:
You have four boys. You want to deskripe who of them is your brother.

My brother is the boy, who/that wearing a watch!
