DO THE DEEPL-MAGIC-MOVE
To improve your text writing with deepl.com is pretty easy. You just have to follow these steps and take a close look at the **important tips for using deepl.com**!

STEP 1: Open deepl.com in your browser or use the app on your digital device.

STEP 2: Now choose the languages: on the left side English and on the right side German (or any other language you may want to use).
STEP 3: Copy or type in the first sentence of your first draft and let deepl.com translate it into German.

> 💡 **IMPORTANT TIP #1**
>
> Check if your German sentence makes sense and is grammatically correct. If not, check the spelling of your English sentence!

STEP 4: Click on the double-arrow (on top or between the two language boxes) to translate your German sentence back into English.

STEP 5: Finally, deepl.com has done its magic and created a grammatically correct English sentence based on your original sentence. Now go on with the next sentence you want to check!

> 💡 **FINAL IMPORTANT TIP**
>
> If there are differences between your original and your new sentence, you could check the reasons, for example different tenses or spelling or alternative vocabulary and create a correction sheet or word list for new vocabulary.

> 💡 **IMPORTANT TIP #2**
>
> Additionally, deepl.com offers you **alternative sentences** you can use! And don't forget to click the **audio button** to listen to how your new sentence is pronounced!
