

The image shows a grid of 12 columns and 12 rows of boxes. The first 8 columns contain 3 horizontal lines each. The last 4 columns contain 2 horizontal lines each. A grey staircase pattern is overlaid on the grid, starting from the top-left and moving down and right.

The image shows a large grid of 20 vertical columns, each 20 rows high, arranged in two rows of ten. The grid is used for writing or drawing. The columns are separated by thin vertical lines, and the rows are separated by thin horizontal lines. The grid is set against a light gray background.

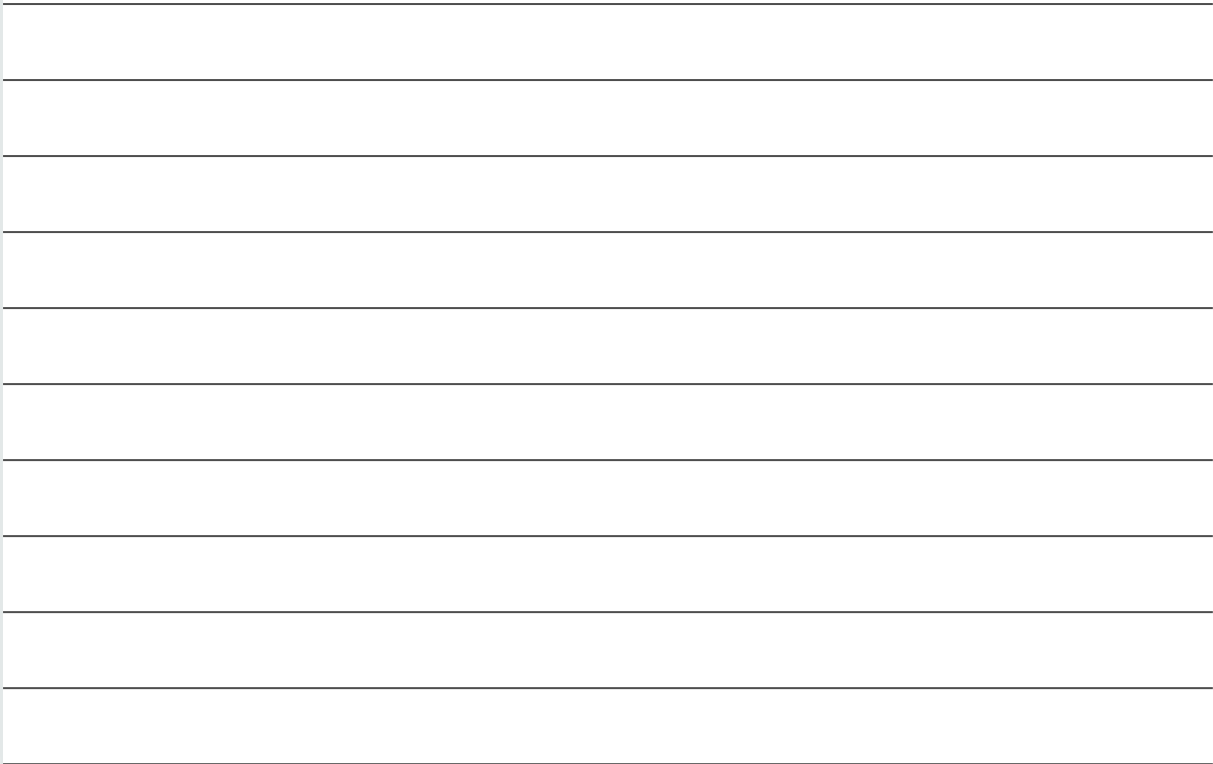

The image shows a grid of 12 vertical columns of boxes. Each column is 10 boxes high. The boxes are arranged in a pattern that tapers from left to right. The first column has 10 boxes, the second has 9, the third has 8, the fourth has 7, the fifth has 6, the sixth has 5, the seventh has 4, the eighth has 3, the ninth has 2, the tenth has 1, the eleventh has 1, and the twelfth has 1. The boxes are arranged in a way that they are staggered vertically between adjacent columns.

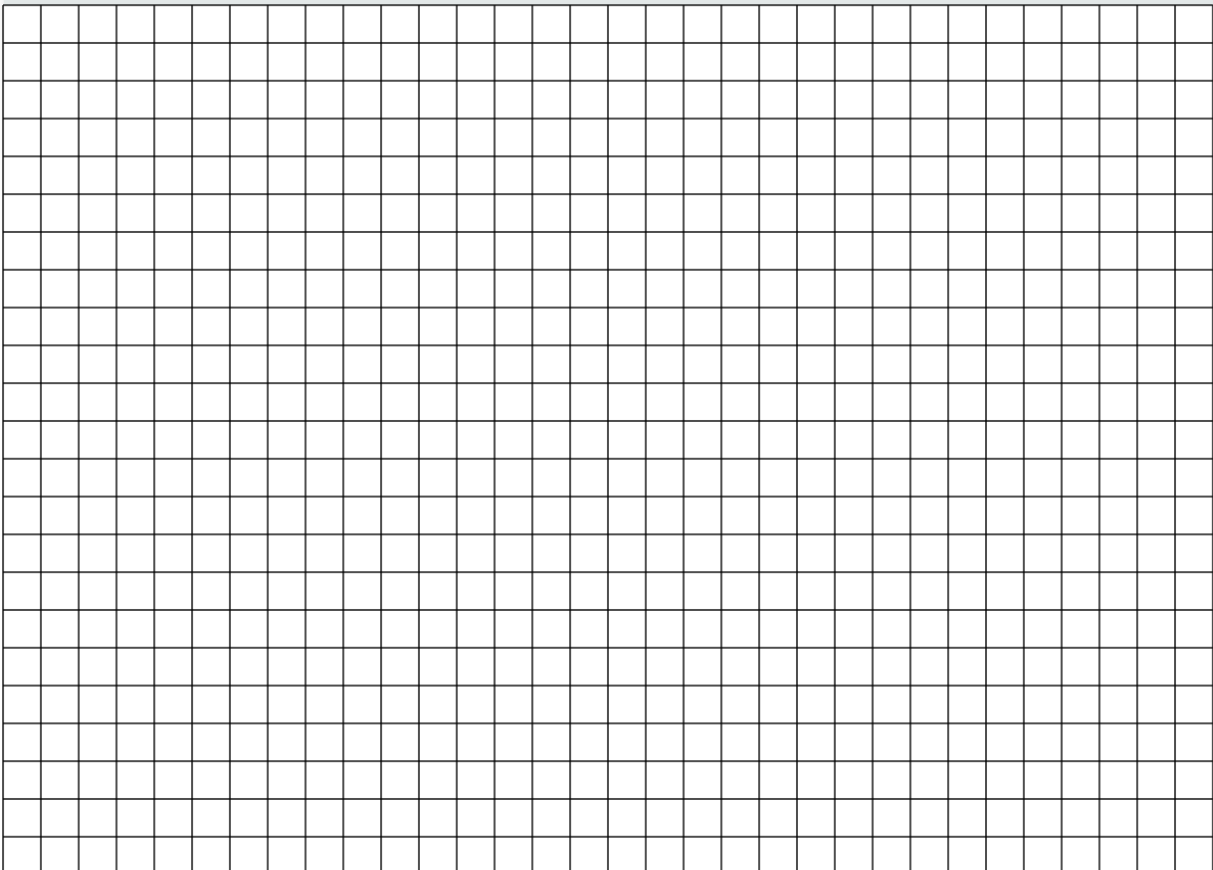

The diagram illustrates a tiling problem on a 20x10 grid. On the left, there are 10 rows of grid blocks, each 2 units high and increasing in width from 2 to 20 units. On the right, there are 10 rows of horizontal bars, each 2 units high and decreasing in length from 18 to 2 units. The background of the grid is shaded in a light gray color.

A series of horizontal lines and rectangular boxes on a light gray background. The boxes are arranged in a descending staircase pattern from top-left to bottom-right. Each box contains three horizontal lines, representing a form for data entry or comparison.

A grid of 18 columns and 20 rows. The grid contains a complex pattern of grey-filled cells. The pattern consists of several vertical bars and horizontal bars of varying widths. From left to right, there are four vertical grey bars: one at column 2 (rows 1-4), one at column 3 (rows 1-10), one at column 4 (rows 1-10), and one at column 5 (rows 1-10). There are also horizontal grey bars: one at row 1 (columns 2-3), one at row 4 (columns 1-3), one at row 10 (columns 1-18), one at row 11 (columns 4-18), one at row 17 (columns 1-10), and one at row 18 (columns 5-18). All other cells in the grid are white.

A writing area consisting of horizontal lines. It is preceded by a light gray shaded header bar and followed by a light gray shaded separator bar.

A writing area consisting of a grid of small squares. It is preceded by a light gray shaded header bar and followed by a light gray shaded separator bar.
